

A Letter from our CEO

"60 years of service. 60 years of serving the Atlanta community. Saving the lives of thousands of individuals, our history is like none other."

We are celebrating our 60th Anniversary! Celebrating 60 years in any field is an accomplishment. In 1962, a halfway house was founded to address the rising problem of the chronic alcoholic court offenders in the community and was known as St. Jude's House.

Over the years we have continued to provide treatment for the disease of addiction and mental health disorders to individuals who are homeless, low-income, and cannot afford life-saving treatment. We have stayed true to our mission of providing a behavioral health system of care that sustains recovery and returns individuals to their communities and families.

1960s

The agency was founded and opened a halfway house for men called St. Jude's House.

1970s & 80s

The agency gains recognition and support from local and national leaders.

1990s & 2000s

The agency experiences rapid growth, purchasing 7 facilities and expanding programs. The agency changes its name to St. Jude's Recovery Center.

2010s & 20s

The agency continues to grow its programs, building its 8th facility- the Healthcare Center. The agency rebrands to Ascensa Health.

This has been an amazing year!

- We officially changed our name to Ascensa Health, completing our re-branding process.
- Newsweek Magazine named Ascensa Health's Men's Program as one of America's Best Addiction Treatment Centers.
- We received the Partner Award from Federal Probation for our collaborative Outpatient Treatment Program
- We received the award for Outstanding Behavioral Health Provider for Region 3 from the Georgia Department of Behavioral Health & Developmental Disabilities

As we honor our past and look to the future, I would like to thank the Atlanta community for their continued support for these past 60 years. I am grateful to our staff and Board of Directors for their steadfast commitment, compassion, and dedication. Together we have made a difference.

Our longevity in the community speaks to our ability to adapt and change which shows our resilience as we move forward to next year with optimism!

With gratitude,

Suzanne Shaffer
President & CEO

About Us

OUR MISSION

Ascensa Health provides a behavioral health system of care that sustains recovery and returns individuals to their communities and families.

WHAT WE DO

Ascensa Health's services are based on the belief that addiction is a disease and that treatment must focus on the whole person. The agency uses an evidence based approach that addresses substance abuse as well as mental, behavioral, and physical health.

WHO WE SERVE

Ascensa Health is open to anyone seeking treatment for addiction and co-occurring mental health disorders. Clients of Ascensa Health are low-income men and women, veterans and families with children. Many are experiencing homelessness, do not have health insurance, and cannot afford treatment.
